Beautifully minimal, the Afterroom Counter & Bar Chair Plus pays homage to functionalism and the Bauhaus school of art. A MENU bestseller ever since its launch in 2012, the chair is the work of Afterroom, a young Stockholm-based design studio, founded by designers Hung-Ming Chen and Chen-Yen Wei. With Afterroom Counter & Bar Chair Plus the duo elevate the chair to higher heights with the introduction of a new bar version that has now been added to the Afterroom Chair family. Like the original, the stool is deconstructed and stripped of unnecessary components, but now boasts the additional feature of a wider backrest and a luxurious upholstery of both seat and backrest. The result is a blissfully simple chair that embodies both minimalism and style, bound to steal the show in any room.

About the Designer

Afterroom is a Stockholm-based design studio, respecting wear and tear and the passage of time. Founded and directed by Hung-Ming Chen and Chen-Yen Wei, the studio's mission is to create beautiful products, which will increase in value with the passage of time - design with which one can grow old. The inspiration derives from an intriguing interest in forms, senses, proportions, materials and cultures with a philosophy that pivots simplicity and honesty.
