APOLLO 阿波羅

The simple yet eye-catching APOLLO aims to make a big impression in space. The huge shade embraces and sheds the light at the same time, while the LED module is integrated behind the metal cap, preventing the light from being visible and causing glare. This collection comes available in pendant and floor lamp variations. The floor lamp is married with wooden tripods along with a touch-dimmer device, allowing users to enjoy flexible modes similar to the idiosyncrasies found in natural light.
