Bottle Grinders

The form, shaped more like a bottle, cleverly tricks the user to encourage a more playful and experimental interaction with the product. The powerful ceramic mechanism makes the grinder easy to operate and perfect for a wide range of dried spices, seeds, salt and pepper. You simply open them, fill them with delicious ingredients and close them again. With the grinding mechanism located at the top of the set, it also ensures that you will keep your counter or kitchen table clean from salt and pepper flakes common with most other grinders. The Bottle Grinder collection is available in a range of beautiful, soft Scandinavian colours and is now extended with addition of brushed brass and bronzed brass versions

The Bottle Grinders are not your typical salt and pepper grinders. The form, shaped more like a bottle, cleverly tricks the user to engage with the design in a playful and experimental way – and the powerful ceramic mechanism encourages even further experiments as it tackles a wide range of spices, seeds, salt and pepper. Bottle Grinders are easy to operate, fill and clean. The Bottle Grinder comes in a range of beautiful, soft Scandinavian colours combined with beech or walnut lid and is now extended with the addition of brushed brass and bronzed brass versions. Available from October 2019.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.

Notes to Editor

MENU is a Scandinavian design brand with a simple purpose: to make the world more beautiful, less complicated, and a little bit nicer to wake up to.

Product Type

Bottle Grinders

Since 1978, we have harnessed the skills of top designers and craftspeople in Scandinavia and around the world to create contemporary design that is clean, clever and natural. These principles culminate in an aesthetic we call soft minimalism. Together with our Danish Modernist roots, this concept serves as a foundation for our designers as they find new ways to unite our heritage with a fresh vision for modern living, reimagining mid-century modern values to bring irresistible new ideas to people and spaces. Your chosen objects will be with you for years to come. We know every decision you make is important, and we want nothing more than to bring joy, beauty and ease to the process of designing your space. It's why we exist and what we do best.
