

## BOWL TABLE

---

The Mater Bowl Table reconciles old Indian craftsmanship with the simplicity of Scandinavian design. The table top, made of sustainably sourced mango wood is turned on a lathe, showcasing the skill of Kharadi, an Indian wood turning community and thereby supporting local craftsmanship. The Bowl Table can stand alone or be paired as a side table vignette. The finish used on the table top is a lead-free, water-based PU lacquer. The legs are made of milled hollow steel rods and can be detached for ease of labour and transportation.

Indian mango wood is a fast-growing and sustainable source of timber - once the productive life of the tree is over, the mango tree is felled and another one is planted to replace it.
