### DESCRIPTION

Paavo Tynell's fanciful take on nature is gracefully echoed in the 5321 Table Lamp, designed by the Finnish designer in 1941. Under the distinctive shell inspired brass shade, the bulb subtly appears from beneath; a picturesque detail resembling the desirable sea shell pearl and making the 5321 Table Lamp a perfect example on how Tynell brought a playful nature and romance to the simplified style of mid-century modernism. Blending timeless aesthetic with a unique sense of form, the 5321 Table Lamp adds an exquisite character to complement any modern space. Both decorative and functional, the lamp is a balance of elegance and curiosity, providing a design that is at once subtle and surprising.
