ACCESSORIES

- PLASTIC GLIDES ARE STANDARD.
- FELT GLIDES ON REQUEST.

CLEANING AND MAINTENANCE

For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.
If further cleaning of the upholstery is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning.
Avoid blotches by gentle, circular rubbing towards the stain.
To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.
Do not use the following products for the padding:
• Undiluted cleaning liquids.
• Bleach.
• Ammoniac.
• Soap for hard surfaces.

For dusting and light cleaning of the frame use a soft, dry cloth.
For further cleaning of the frame, use a soft cloth that is firmly wrung in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.
If more thorough cleaning is necessary, use a mild detergent or washing-up liquid dissolved in water on a firmly wrung cloth to wipe the seat. Afterwards, repeat the process with clean water as described above.
Polish with a soft cloth after wiping.
Do not use materials for maintenance that:
• Contain abrasive agents.
• Are basic, acidiferous or organic.
For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.
Furthermore, protect the surfaces against sharp objects and other that might scratch.

ENVIRONMENT

Parts can be separated and sorted for recycling.

Disposal of plastic type PP may be done with incineration of waste.

TESTS

Foam is fire retardant according to California Technical Bulletin 117.
Foam according to BS 5852, Crip 5, is available on request
