# MEZCLA JH19

BY JAIME HAYON  
2018

Mezcla is the Spanish word for “mixture” and reflects the signature trait of Spanish designer Jaime Hayon – and his new series of tables featuring a mix of shapes, sizes and colours in exclusive materials.

Drawing on classic geometric shapes, like the circle, oval and cylinder, each component is crafted in a different material with its own texture, finish and colour. The result is a composite of contrast and cohesion in a series of tables with no sharp edges. Meaning, you can sit anywhere you like and be equally as comfortable.

The Mezcla tables come in different sizes and heights, with the option of various types of wood or marble for the tabletop, polished brass or chrome for the stem, and curated colours for the base.

Whether placed individually in a private or corporate setting, or grouped together in a luxurious hotel, restaurant or commercial venue, it's a harmonious mix of differences. The perfect setting for different people to feel comfortable connecting with each other.

Ø: 42cm / 16.5in

45cm / 17.7in

<b>Category</b>	Side table
<b>Production process</b>	The table top is made from solid wood or marble. The base is made from electro plated and powder coated steel.
<b>Environment</b>	Indoor
<b>Material</b>	Marble or solid wood with electro plated and powder coated steel
<b>Dimensions (cm/in)</b>	H: 45cm/17.7in, Ø: 42cm/16.5in
<b>Weight (kg)</b>	Marble top: 26 kg Wood top: 17 kg

## CONTENTS

- A - Base
- B - Top support
- C - Column
- D - Table top
- E - Large counter sunk bolts x 2
- F - Flanged button head screws x 4
- G - Large Allen key
- H - Small Allen key
- I - Self-adhesive felt pads x 5
- J - Small counter sunk bolts x 3

**Please read these instructions carefully and retain them for future reference to ensure that the table is used correctly. For your own safety, please study each step of this instruction manual. &tradition is not responsible for any faults or damages caused by not following these instructions correctly.**

## SAFETY PRECAUTIONS

- Dispose of plastic bag from packaging and do not allow children to play with it.
- The table is only intended for interior use.
- Handle table tops with care in order not to scratch surfaces.
- Power tools can be used to assemble the table. Be careful not to overtighten or damage screw or thread.
- Spilled liquids of any kind should be removed immediately from the table top as it may penetrate the surface treatment and cause damage to it.

## CLEANING INSTRUCTIONS

The Mezcla table is made from powder coated and plate steel, solid wood or honed marble. Never use aggressive or abrasive cleaning detergents for any parts of the table, as this will cause irreparable damage.

### Solid wood table top

For daily care, dust oiled furniture with a soft dry cloth. Cleaning can be done using a soft cloth wrung in lukewarm water following the wood grain and dried immediately with

a dry cloth following the wood grains. For more severe cleaning a soap specifically developed for oiled wood can be used. Follow the instructions on the packaging of the cleaning product. To maintain the look and silky feeling of oiled wood, regular re-oiling is recommended. Re-oiling should be done when the wood starts to appear dry or faded. Usually, reoiling four times every year is sufficient.

### Marble table top

The marble plate is made from natural marble and will therefore have variations in structure and colour. This should not be considered a defect nor a valid reason for claims. The marble is treated with sealer, but it is strongly recommended to use a trivet and never place glasses or cups with liquids directly on to the marble. Spilled liquids will leave permanent stains due to the natural sensitivity of marble. For daily cleaning of the marble top it is recommended to use a cleaning agent specifically developed for stone or marble. It is also highly recommended to do a re-sealing of the marble every second month, using an appropriate sealer developed specifically for stone or marble.

### Metal base

It is recommended only to use a soft dry cloth to clean plated and powder coated surfaces but in case more severe cleaning is necessary, a soft cloth wrung in lukewarm water can be carefully applied. Always dry immediately after cleaning with a soft dry cloth.

### STEP 1

Place the column (C) on the floor. Place the top support (B) on top of the column and align the holes with the three corresponding holes in the column. Place the small counter sunk bolts (I) in the appointed holes and fasten clockwise with the large Allen key (G).

### STEP 3

Place the base (A) on the column and align the holes with the two corresponding holes in the column. Place the large counter sunk bolts (E) in the appointed holes and fasten clockwise with the large Allen key.

### STEP 2

Turn the top support upside down on a soft, flat surface.

### STEP 4

Place the self-adhesive felt pads (I) on the bottom of the base, with equal spacing and 1 cm from the edge as illustrated.

### STEP 5

Place the table top on a soft, flat surface and place the top support on the table top. Align the holes with the four corresponding holes in the table top. Place the flanged button head screws (F) in the appointed holes and fasten clockwise with the small Allen key (H).

### STEP 6

Turn the table around and place carefully on the floor.
